

AAON

Manufacturer of Semi Custom commercial heating and cooling equipment specializing in 100% Outside Air , energy recovery and water source heat pumps

Annex Air

Packaged DX, Chilled water and WSHP air to air energy recovery and make up air units for Commerical and industrial applications

Carrier

Worldwide manufacturer of air handling units, packaged and split DX equipment, air and water cooled chillers and terminal equipment for any project

Desert Aire

Manufactures of industrial and pool dehumidifiers and grow room systems setting new standards for quality and performance

Global Plasma Solutions

Air purification devices utilizing Needlepoint Bipolar Ionization technology to deliver clean indoor air without producing ozone nor harmful byproducts

GREE

A leading international brand of commercial variable refrigerant systems of heat pumps, heat recovery and water cooled equipment

Heat Pipe Technology

Energy recovery and dehumidification systems for commercial applications around the globe. Using the latest in passive heat transfer

Nailor Industries Inc.

Single-duct and fan powered VAV terminals, fan coil units and blower coil units meeting the highest standards for quiet, efficient performance

RuppAir

Direct fired and Indirect fired Make-up Air Units, DOAS Systems, HVLS Fans, exhaust fans, and premanufactured double wall grease duct

Semco

Global leader in air management. We specialize in the design and manufacture of a wide range of air climate and air movement solutions

Thermal-Corp

Custom AHU, Blower Coils, Column Units, HVAC Air Filter Housings, and Fan Pak Housings

Zehnder Rittling

Unit Heaters, Cabinet Unit Heaters, Convectors, Steel Ceiling Systems, Radiant Cooling & Heating Ceiling Panel Solutions

Harrisburg Sales Office
6405 Flank Drive
Harrisburg, PA 17112

KOP Sales Office
780 5th Ave, Suite 175
King of Prussia, PA 19406

(717)-561-2500

Architectural and commercial Air curtains

CAREL USA

Commercial and Industrial electric, steam and gas fired humidification products specializing in Isothermal and adiabatic

Dessicant dehumidification and Critical process air handling

Premium air handling solutions. Complete customized systems for the building industry.

Air Cooled and Water Cooled Chillers Utilizing Turbocor frictionless technology

Hydronic and DX air supply products. Unit Ventilators, Air Handlers and Blower Coil Units

Air flow measuring and pressure sensing elements, monitoring and control systems

Indoor or outdoor energy recovery units with plate type energy exchange core

Control systems for AAON units

New and replacement coils, IFB Coils

Air flow mixing systems

Displacement Chilled beams

Computer room AC equipment

All Aluminum construction Custom air Handling units and fluid control packages

Hydronic coils, fluid & dry coolers

Mini Splits & Split Systems

Portable Air Filtration unit. With: 2" 30% Filter, HEPA Filter, UV lights, & NPBI

Kitchen hoods, make-up air units & exhaust fans

WSHP hose kits & FCU piping packages

Steam distribution systems

Infrared tube heaters

High plume dilution lab exhaust fans

Energy recovery systems

Latent Induction & Chilled Beams

Electric heated cabinet & unit heaters

Commercial packaged RTUs & Splits

Centrifugal and sidewall propeller fans

Gas fired unit heaters & make-up air equipment

Packged DX CW vertical unit vents

Gas fired make-up air units & air rotation

WSHP, DOAS units & dehumidifiers

Electric heaters & VAV terminals

Ultraviolet (UV-C) lights

Variable frequency drives
