

AAON

Manufacturer of Semi Custom commercial heating and cooling equipment specializing in 100% Outside Air , energy recovery and water source heat pumps

Annex Air

Packaged DX, Chilled water and WSHP air to air energy recovery and make up air units for Commerical and industrial applications

Carrier

Worldwide manufacturer of air handling units, packaged and split DX equipment, air and water cooled chillers and terminal equipment for any project

Climate by Design International

Dessicant dehumidification and Critical process air handling for industrial, health care and archival storage, featurng no thru metal construction and low temperature applications

Desert Aire

Manufactures of industrial and pool dehumidifiers and grow room systems setting new standards for quality and performance

Energy Labs, Inc.

Premium air handling solutions for controlling building environments. Complete customized systems for cooling, heating, humidification and air filtration

GREE

A leading international brand of commercial variable refrigerant systems of heat puimps, heat recovery and water cooled equipment

Heat Pipe Technology

Energy recovery and dehumidification systems for commercial applications around the globe. Using the latest in passive heat transfer technology

Nailor Industries Inc.

Single-duct and fan powered VAV terminals, fan coil units and blower coil units meeting the highest standards for quiet, efficient performance

Semco

Global leader in air management. We specialize in the design and manufacture of a wide range of air climate and air movement solutions

TMI Climate Solutions

Provide solutions through innovative design and custom manufacturing delivering the highest value in air handling and hydronic products

The Whalen Company

Pioneering manufacturer of HVAC vertical stack riser heat-exchanger fan coil units and water-source heat pumps for apartments, hotels, condos and multi-story structures

Harrisburg Sales Office
6405 Flank Drive
Harrisburg, PA 17112

KOP Sales Office
780 5th Ave, Suite 175
King of Prussia, PA 19406

(717)-561-2500

Cost effective control systems for AAON units

Architectural and commercial Air curtains

Blender Products, Inc.
Air flow mixing systems

Displacement Chilled beams

CAREL USA
Commercal and Industrial electric, steam and gas fired Humidification products sepicalizing in Isothermal and adiabatic

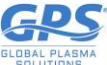

Green commercial and industrial modular chillers promoting energy efficiency

Precision air control for data processing centers that configures a mission-critical cooling system

Desiccant dehumidification systems

Cold plasma air purification technology, Needlepoint Bipolar Ionization

Adiabatic Evaporative Condensers, Air coolers and Dry coolers

Hydronic and DX air supply products. Unit Ventilators, Air Handlers and Blower Coil Units

Air flow measuring and pressure sensing

Gas fired unit heaters and make up air equipment

Gas make-up air units, air rotation

WSHP, 100% OA Units and dehumidifiers

Variable speed drives

New and replacement coils, IFB Coils

Hydronic Coils, Fluid and Dry coolers

Mini Splits

Infrared Tube Heaters

Energy Recovery Systems

Energy Recovery Ventilators

Commercial packaged rooftops and split systems

Packaged vertical classroom unit ventilators with energy recovery

Replacement PTACs and fan coils

Packged DX CW vertical unit ventilators

Ultraviolet Lights

Electric heaters and VAV terminals

Terminal heating equipment and radiant ceiling panels

Note:

Not all products are available in all locations. Please contact us for product availability.
